- Customer Service
- Planning & Setting Goals
- Time Management

EXPERIENCE:

Prime Digital Academy - Software Development Student

JULY 2022 - NOVEMBER 2022

- Solo Project: **'MOSH.' concert-going companions**
 - Going to concerts alone is never quite as fun - find a friend to experience a show together!
 - Built a Desktop / Mobile Responsive application allowing users to connect with one another over shared musical interests. Users are able to log in, create a profile, find local events and connect with other users to attend the event together.
 - *Technologies Used: Javascript, React, Redux, Sagas, Express, Node.js, 3rd Party API's, SQL, Postgres, Material UI, HTML, & CSS.*
- Group / Client Project:
 - *(Coming November 2022)*

Starbucks - Shift Supervisor

FEBRUARY 2020 - AUGUST 2022

- Adapted to unprecedented times while navigating a team through conflicts - in order to maintain product quality and production efficiency.
- Demonstrated superior customer service to a diverse customer base and dedication to craft - being awarded *'Partner of the Quarter'*.

Fresh Thyme Farmers Market - *Dairy/Frozen Department Supervisor*

SEPTEMBER 2017 - AUGUST 2020

- Managed department through monitoring product flow, delegating tasks to employees, and resolving customer and vendor concerns.

MarketSource - Target Tech - *Wireless Team Lead*

MARCH 2016 - AUGUST 2017

- Headed scheduling, training, and onboarding of new employees in order to foster a seamless transition into their new position.
- Boosted sales through enthusiastic education on products and services offered.

AWARDS:

Partner of the Quarter - *Starbucks* [FALL 2020]

Employee of the Month - *Fresh Thyme Farmers Market* [APRIL 2018]

Marketsource Top Performers List - *MarketSource* [DEC. 2016 & JAN 2017]

EDUCATION:

Prime Digital Academy - *Full Stack Software Engineering Certification*

NOVEMBER 2022

- 20 Week immersive program set to equip emerging software engineers with the skills they need to make immediate contributions to companies in their future. Empowering students from diverse backgrounds to begin their new careers in months, not years.
- Students learn modern technologies, practical methodologies and critical behavioral skills through carefully crafted curriculum and hands-on work on real world projects.
